

**BLUE MARBLE WATER
SOLUTIONS**

Purity you can taste!

High capacity powerhouse point-of-use water purifier that helps business of all sizes create their own near-endless supply of purified water for drinking, ice, cooking, and dish-washing

**BLUE MARBLE HyperPure PRO HUB
PREMIUM WATER PURIFIER**

Blue Marble HyperPure Pro Hub

ENDLESS SUPPLY OF PURE, FRESH WATER

Functional and convenient
The Blue Marble HyperPure Pro can be installed to work with most appliances.

The Blue Marble HyperPure Pro Hub is a powerful, yet compact, under-sink water purifier that helps you create your own source of pure water

A sound investment in health and wellness

Delivering an amazing 39 gallons per hour* (150 liters per hour), it's one of the best in-vestments you can make for your health and wellness. The Blue Marble HyperPure Pro Hub removes chemi-cal contaminants, heavy metals and pathogenic bacteria.

Superior second-generation hyper-filtration

Harnessing patented second-generation reverse osmosis technology called SuperiorOsmosis™, The Blue Marble HyperPure Pro Hub turns municipal water into pristine water for drinking, cooking and washing. You can connect the Blue Marble HyperPure Pro Hub to the refrigerator for crystal clear ice cubes and to the dishwasher to ensure sparkling glassware and dishes.

A new dimension in water filtration

The Blue Marble HyperPure Pro Hub adds a new dimension to generating cleaner, healthier water in home and commercial environments by improving the entire drinking experience. You get pristine drinking water and you can forget buying bottled water altogether. Satisfy your thirst for life by transforming your home or workplace into your own source of fresh water.

*WQA results: 37 gallons per hour (140 liters per hour) based on WQA test parameters.

Superior Osmosis
Patented SuperiorOsmosis™ for powerhouse delivery of clean water from the tap with more than 60% reduction in waste water compared to traditional reverse osmosis solutions.

Superior Flow
Benefit from a market leading high flow of water from the tap, delivering 39 gallons per hour*

Contaminate removal
95-99% removal of most water-borne contaminants that can threaten health or taste such as lead, copper, cysts and nitrates.

Recovery
Slashes the reject water. An amazing 50-60% recovery rate reduces waste significantly, and helps reduce environmental impact.

Long-life membrane
A patented design dramatically extends the life of the membrane filter beyond all competing products.

Cooking
Great for cooking. The Blue Marble HyperPure Pro removes practically all the impurities that can impact food quality and taste.

Installation
The Blue Marble HyperPure Pro is easy to install and offers powerful results with a small footprint.

Energy efficiency
Energy efficiency has been designed into The Blue Marble HyperPure Pro to help reduce operating costs and carbon footprint.

Awards
The Blue Marble HyperPure Pro has been honored with international awards for its design and engineering

Beautiful design
The Blue Marble HyperPure Pro is designed to fit into the style of your facility.

Tankless direct flow

Water is purified directly on demand and no tank is necessary.

Inlet low feed pressure switch

Automatically turns off unit in case of water pressure loss.

Filter monitor

Monitors and alerts you when filters need to be replaced.

Leak detection and shutoff switch

Detects leaks and shuts off unit automatically.

Membrane flush valve

Performs periodic flush of filter membrane to maintain optimal flow rate and filter life.

Purified water quality monitor

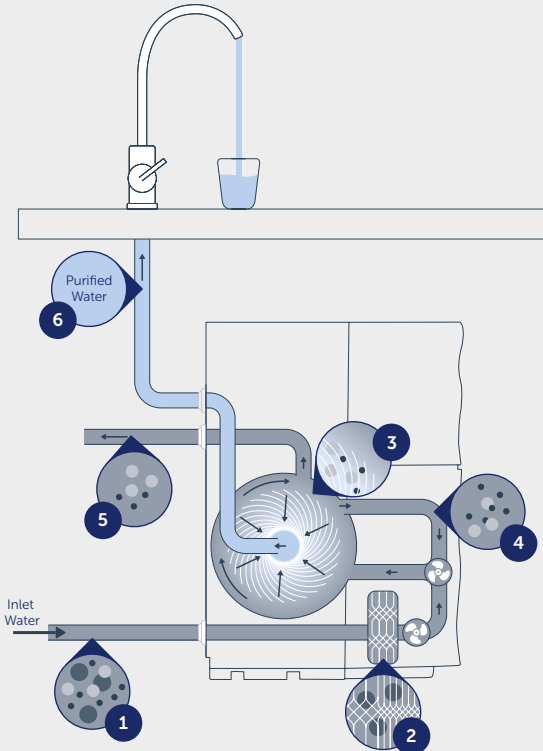

Monitors quality of water and alerts you when quality is low.

Fully enclosed
Sleek and stylish – looks as great as it works.

Product dimensions
5.9 x 14.4 x 18.2 inches (WxDxH)

OUR PURIFICATION PROCESS

1. Unfiltered water enters the Blue Marble HyperPure Pro via inlet water.
2. Larger contaminants are removed using a high-quality HyperPure Pro activated carbon pre-filter.
3. The Superior membrane removes the tiniest contaminants down to 0.0001 micron in size (that is 400 times smaller than the smallest virus).
4. The patented SuperiorOsmosis™ circulation technology continuously cleans the membrane, ensuring higher flow, better purification, less waste water and longer membrane lifetime.
5. Harmful contaminants are flushed out with the outlet water.
6. The Blue Marble HyperPure Pro delivers crystal clean, healthier and great tasting drinking water directly out to multiple devices.

GOOD FOR YOU
GOOD FOR HUMANITY
GOOD FOR THE PLANET

This is a patented technology to deliver enhanced water quality in a world where tap water taste and safety can no longer be taken for granted. We believe everyone has the right to drink water that is as clean as nature intended. That is why our technology is designed to deliver water for residential and commercial drinking, cooking, washing and other purposes that is free of bacteria, toxic metals, pharmaceutical and chemical residues, and the likes of limescale.

The Gold Seal Trademark from the United States Water Quality Association (WQA) is an industry standard that certifies water treatment products have been tested to meet industry standards. It ensures that a product is made from safe materials, that the claims listed on the packaging are backed by test data, and the product will hold up under normal usage conditions.
