

Commercial Unit

vs.

Marketed for Residential Use

Oxidize It	Pure Wash	Oxidize It Advantages
Made in USA	Made in China	
Metal Housing	Plastic housing	Oxidize It's housing is appliance grade metal and is more durable as it is resistant to deterioration
One Model works for ALL COMMERCIAL machines	2 models High Flow/Low Flow	No confusion with Oxidize It™, ease of installation, and no need to purchase additional unit if you upgrade washing machines
Regenerative Heated Drying Cell	Replacement Drying Cell - Needs Changed EVERY 3 months by the customer at \$30.00 USD	Oxidize It™ supplies the ozone generator with heater dry air because the humidity of a laundry room decreases the effectiveness of ozone generator as well as the humidity can cause internal Failures
Directional flow regulator	Nothing	Oxidize It™ allows you to optimize your unit for maximum effectiveness regardless of your water pressure
Commercial Ozone generator	Standard ozone generator	Oxidize It™ has a patented commercial grade cold spark corona discharge, making it a longer lasting generator
Venturi funnel	Mini fan	Oxidize It™ uses a Mazzei venturi injector with a double protection valve insuring the unit will not backflow....Pure Wash uses a mini fan; fans are a common failure point
No moving parts- everything is permanent	Multiple moving parts- Must change decadsents in drier	Moving parts are failure points and can cause problems and can be costly to customers
Vacuum Infusion Technology	No vacuum actuation switch	Oxidize It™ uses smart technology, Ozone only actuates when it is infused into the water
Water in-take on bottom of unit	Water in-take on top of unit	Oxidize It™ superior engineering, plumbing is below all electrical components, whereas Pure Wash has some electrical components below the plumbing
1 yr. warranty	Commercial warranty- ??	Oxidize It™ warranty is on ALL parts , Pure Wash some parts only 1 year... but is it void on commercial use?
MSRP \$1,399.00 <u>COMMERCIAL Model</u>	MSRP: \$397.00 <u>RESIDENTIAL Model</u>	Oxidize It™ is a direct sales / support company. The Commercial model is design to handled up to 40 loads per day. The Pure Wash has been known to fail within 4-12 months of installation, is sold on-line mainly, and is has less & inferior module parts that are manufactured in China. Pure Wash is labeled as a residential model.
Projected life of 10-15 years	Projected life 2years	Oxidize It™ provides more years of use and more savings in the long run- ITS DESIGNED FOR COMMERCIAL USAGE
